

ECO LIPS™

Overview

Eco Lips are the original organic lip balm: certified organic, made with fair trade ingredients, made with wind power offsets, and by a certified B corporation (the B stands for Benefit). Because of their emphasis on USDA certified organic food grade ingredients, these lip balms work better to moisturize and protect.

Certifications

Eco Lips are proud of the steps that they have taken to secure the proper certifications for their lip balms, a list of which is presented here.

Facility

Eco Lips use food grade manufacturing processes to ensure cleanliness every step of the way. From low batch temperature, slow-fill manufacturing process to lot coding and labeling lines, Eco Lips are acutely focused on the details of the entire process.

Centrally located in Cedar Rapids, Iowa in an area of town focused on arts and culture, called "New Bohemia", there is a year round farmers market located beside the facility, as well as a solar array providing energy to the vibrant neighborhood.

With the mission of satisfying the needs of customers, Eco Lips has been first to market with several innovative organic lip care products and packages. With environmental initiatives in place, a focused marketing and sales strategy, award winning packaging, and a relaxed, yet productive work environment, Eco Lips is making its way around the world, one set of lips at a time.

Packaging

Eco Lips packaging and shipping materials evolve as we do into cleaner, eco-friendly alternatives. They use recyclable lip balm containers made with 40% recycled content, biodegradable/compostable FSC Certified paper tubes, and recycled aluminum carabiner clips for our top-selling Eco Clips. They also use 100% post-consumer recycled displays and biodegradable packaging peanuts.

All products are certified to USDA National Organic Program gold standard.

All raw materials have not been genetically modified.

Eco Lips use Fair Trade Certified products, supporting fair wages and safe working conditions for farmers.

Eco Lips chemical-free zinc sunscreen products meet NSF/ANSI 305 Organic Standards.

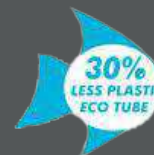

Eco Lips do not use any gluten-derived ingredients in our products.

Eco Lips & their suppliers do not test their products or ingredients on animals.

The large .25 oz lip balm tube is made with over 40% recycled material.

The .15oz tubes contain 30% less plastic than a standard tube & post-industrial recycled plastic.

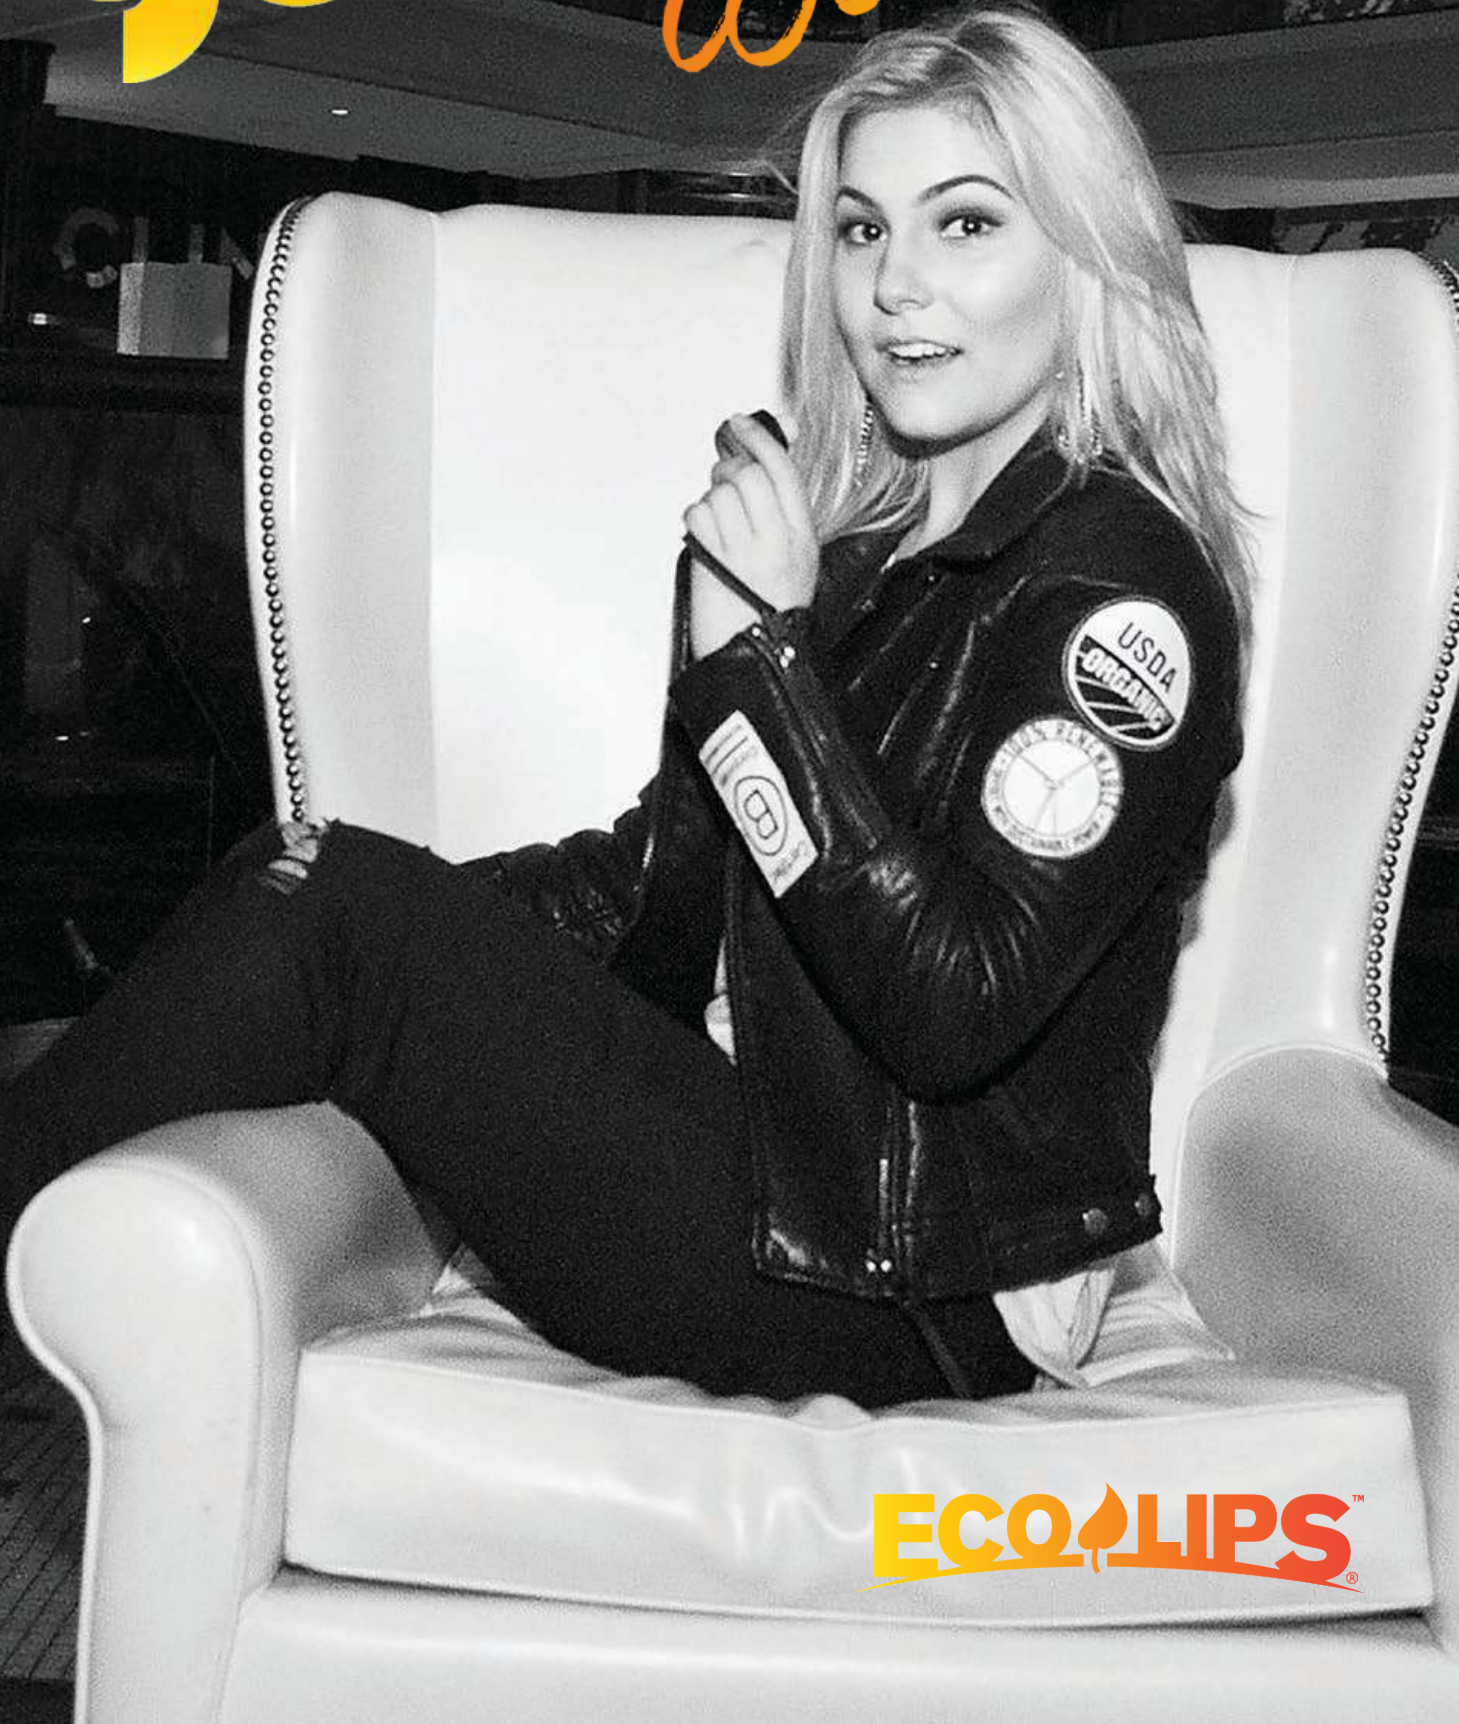

We offset 100% of our manufacturing with renewable energy wind credits.

ECO LIPS

Introducing POGO Lip Balms

The possibility of discovery and adventure.
Mother Nature loving citizens of the world.
Dance, write, hike and surf with abandon.
We are lucky to live in the now.
Speak our minds and Kiss the World.

*Kiss
the
World*

Philosophy

POGO is modern freedom. Optimism and ZERO chemical voo doo. POGO has purpose, conscience and soul. Our beautiful believers are vibrant, conscientious individuals. #putongout and strive to leave our world more beautiful with every choice. POGO is the first refillable, organic lip balm for the planet. It's even dishwasher safe so each container is completely pure before popping in a fresh, balm cartridge refill.

Eco-friendly

With every certified badge of honour emblazoned on our soul, we've composed the cleanest, greenest, most delectably potent lip balm on the planet. And as many badges as we've stockpiled, they're nothing without our virtuously effective, gently extracted butters, oils, essential oils and herbs. POGO's expert compounds deliver balanced, aromatic, individual experiences that all lips savour. Swiped onto pouts, the mix of purity and effective moisturizers saturate lips with the clean, organic essences of vanilla, peach, mint, apricot, berries and bananas.

The Best lip balm for the World.
