DRINK OXYLENT BREATHE LIFE

OXYLENT®

DRINK OXYLENT BREATHE LIFE

Oxylent is an award winning, 5-in-1 multivitamin supplement drink, designed to support a healthy immune system, reduce fatigue, release energy, support heart & muscle function, protect against oxidative stress and support mental clarity.

On any given day, your body benefits from Vitamins, Minerals, Antioxidants, Amino acids and Electrolytes. When you work hard or play hard it needs them even more. Don't let dehydration, fatigue and a weakened immune system hold you back.

Oxylent provides: Vitamins, Minerals, Antioxidants, Electrolytes and Amino Acids, all in one refreshing drink and is available in 3 delicious flavours.

Refreshingly, Oxylent delivers all 5 of these nutrients in a variety of delicious flavours, with zero calories, sugar, carbohydrates, caffeine, gluten, dairy, soy, artificial sweeteners... or artificial anything!

Oxylent – For the multi you.

The Benefits

■ Immune System Support

Vitamins C & D and zinc, help support the normal functions of the immune system.

■ Help Reduce Fatigue & Release Energy

The B vitamins riboflavin, B12 & B6 contribute to the reduction of tiredness and fatigue, whilst B12 & B6 help you to release energy.

■ Heart & Muscle Function Support

Potassium, calcium and vitamin D contribute to normal muscle function. Vitamin B1 contributes to the normal functioning of the nervous system and the heart.

■ Help Protect Against Oxidative Stress

Zinc, manganese, selenium and vitamin C contribute to the protection of cells from oxidative stress.

■ Help Support Mental Clarity

Pantothenic acid contributes to normal mental performance, whilst zinc can contribute to normal cognitive functions.

Methyl Folate is the most biologically active form of folate. While most people can naturally convert folic acid into its active form, 5-MTHF (5-methyltetrahydrofolate), by way of the MTHFR enzyme, those with a MTHFR gene mutation cannot -- and are therefore at risk of folate deficiency despite supplementation. Vitalah has chosen to include 5-MTHF instead of folic acid to ensure that all consumers receive a source of folate they can metabolize.

METHYLATED
FOLATE
5-MTHF

Antioxidants can be classified as either "primary antioxidants" or "secondary antioxidants"—SOD

★
SOD
★

(**superoxide dismutase**) is a primary antioxidant, our bodies' primary and most powerful defense against free radicals and oxidative stress. SOD neutralizes the most common free radicals in the body. Each and every I.U. of superoxide dismutase eliminates billions of free radicals in the body.

Oxylent is made exclusively with **Albion Minerals**, and has received Albion's Gold Medallion, which recognizes products for excellence in mineral fortification. Albion® Human Nutrition is the most established and globally recognized leader in the chelate industry. Albion is the first bis-glycinate chelate manufacturer to be approved by EFSA, the European Food Safety Authority.

Introducing New Oxylent

Vitalah, the creator of Oxylent, is committed to providing the highest quality dietary supplements, and part of that commitment is ensuring that each formulation includes the safest, most efficacious ingredients on the market. That's why Vitalah recently made three upgrades to its Adult Oxylent® formula: switching the source of folate from folic acid to 5-MTHF (5-methyltetrahydrofolate); changing the source of iodine from potassium iodide to kelp; and adding in sources of vitamins A and E.

New formula:

- **Switching the source of folate from folic acid to 5-MTHF:**

While most people can naturally convert folic acid into its active form, 5-MTHF (5-methyltetrahydrofolate), by way of the MTHFR enzyme, those with a MTHFR gene mutation cannot -- and are therefore at risk of folate deficiency despite supplementation. Vitalah has chosen to include 5-MTHF instead of folic acid to ensure that all consumers receive a source of folate they can metabolize.

- **Changing the source of iodine from potassium iodide to kelp:**

Time-tested efficacy: Switching from potassium iodide to kelp, an ingredient used the world over, equips Adult Oxylent with a natural and whole food source of iodine, a nutrient essential for proper thyroid function and immune response.

- **Adding in sources of vitamins A and E:**

Each serving of Adult Oxylent now contains 300 mcg vitamin A (as retinol palmitate) providing 38% of NRV (RDA), valued for its roles in immune and vision health, as well as 20 mg of the powerful antioxidant vitamin E providing 167% of NRV(RDA).

DRINK OXYLENT BREATHE LIFE

Introducing Oxylent Variety Pack

The New 30 day Variety pack contains your months supply of the new, improved Oxylent formula, with 10 sachets each of Oxylent's great flavours:

- Sparkling Berries
- Sparkling Mandarin
- Sparkling Blackberry and Pomegranate

Mix it up throughout the month by trying the different flavours, all the time getting the benefits of Oxylent's award winning 5-in-1 multivitamin food supplement drink!

Introducing Prenatal Oxylent

Prenatal Oxylent is the recommended prenatal multivitamin of the *American Pregnancy Association*. Adding a packet of Prenatal Oxylent to water creates a delicious and refreshing drink that also delivers a full-spectrum prenatal formula of the safest and most effective nutrients, including:

- Folate (5-MTHF) instead of folic acid to ensure that all consumers receive a source of folate they can metabolize.
- Chelated Iron (Ferrochel®), which reduces constipation and gastrointestinal upset associated with the most commonly used form of iron, Ferrous Sulfate.
- Choline - B vitamins - vitamin C & vitamin D3.
- A full panel of chelated electrolytes & minerals from Albion Minerals, which has been proven to deliver up to twenty times higher bioavailability than typical minerals, as well as greater safety, tolerability, and non-interactivity with other nutrients.

Benefits:

- Nourishes: Promotes the health of mom and baby.
- Supports: Healthy spinal cord development.
- Balances: Helps reduce nausea.

Features:

- Superior multivitamin/mineral content, with a full spectrum of essential nutrients.
- Optimum bioavailability - no use of carbonates, sulphates or oxides.
- Science-backed ingredients of superior quality, including 5-MTHF form of folate rather than folic acid
- Ferrochel® form of iron reduces nausea & constipation.
- No Sugar! Sweetened with pure stevia.
- No gluten, dairy, soy, herbs, caffeine, GMOs, or anything artificial.

Sparkling Berries Flavour (30ct)

30 sachets/ servings Pack

On any given day, your body benefits from Vitamins, Minerals, Antioxidants, Amino acids and Electrolytes.

When you work hard or play hard, it needs them even more. Don't let dehydration, fatigue or a weakened immune system hold you back.

Refreshingly, Oxylent delivers 28 active ingredients in a variety of delicious flavours, with zero calories, sugar, carbohydrates, caffeine, gluten, dairy, soy, artificial sweeteners... or artificial anything!

Oxylent - For the multi you.

Key Benefits

- Suitable for diabetics, vegetarians and coeliacs.
- Premium, 5-in-1 multivitamin, contain 28 active ingredients.
- A Healthier alternative to "sports drinks", maintaining energy levels and preventing dehydration.
- Fast absorption, effervescence drink, replaces pills for those with poor digestion or unable to swallow pills.
- Superior absorption by chelated minerals from Albion Minerals.

Sparkling Blackberry & Pomegranate Flavour

7 sachets/ servings Pack

On any given day, your body benefits from Vitamins, Minerals, Antioxidants, Amino acids and Electrolytes.

When you work hard or play hard, it needs them even more. Don't let dehydration, fatigue or a weakened immune system hold you back.

Refreshingly, Oxylent delivers 28 active ingredients in a variety of delicious flavours, with zero calories, sugar, carbohydrates, caffeine, gluten, dairy, soy, artificial sweeteners... or artificial anything!

Oxylent - For the multi you.

Key Benefits

- Suitable for diabetics, vegetarians and coeliacs.
- Premium, 5-in-1 multivitamin, contain 28 active ingredients.
- A Healthier alternative to "sports drinks", maintaining energy levels and preventing dehydration.
- Fast absorption, effervescence drink, replaces pills for those with poor digestion or unable to swallow pills.
- Superior absorption by chelated minerals from Albion Minerals.

THE OXYLENT DIFFERENCE

Includes

- ✓ Vitamins
- ✓ Minerals
- ✓ Antioxidants
- ✓ Amino Acids
- ✓ Electrolytes
- ✓ Stevia

Does Not Include

- ✗ Sugar
- ✗ GMOs
- ✗ Caffeine
- ✗ Dairy
- ✗ Gluten
- ✗ Artificial Sweeteners

Ingredients

See Nutritional Information.

Other Ingredients: citric acid, natural fruit flavourings, colour: beetroot red, sweetener: steviol glycosides

Prenatal Oxylent (30ct)

30 sachets/ servings Pack

Prenatal Oxylent is the recommended prenatal multivitamin of the *American Pregnancy Association*. Adding a packet of Prenatal Oxylent to water creates a delicious and refreshing drink that also delivers a full-spectrum prenatal formula of the safest and most effective nutrients, including:

- Nourishes: Promotes the health of mom and baby
- Supports: Healthy spinal cord development
- Balances: Helps reduce nausea

Key Benefits

- Folate (5-MTHF) instead of folic acid to ensure that all consumers receive a source of folate they can metabolize.
- Chelated Iron (Ferrochel®), which reduces constipation and gastrointestinal upset associated with the most commonly used form of iron, Ferrous Sulfate.
- Choline - B vitamins - vitamin C & vitamin D3.
- A full panel of chelated electrolytes & minerals from Albion Minerals, which has been proven to deliver up to twenty times higher bioavailability than typical minerals, as well as greater safety, tolerability, and non-interactivity with other nutrients.

Features:

- Superior multivitamin/mineral content, with full spectrum of essential nutrients
- Optimum bioavailability - no use of carbonates, sulphates or oxides.
- Science-backed ingredients of superior quality, including 5-MTHF form of folate rather than folic acid.
- Ferrochel® form of iron reduces nausea & constipation.
- No Sugar! Sweetened with pure stevia.
- No gluten, dairy, soy, herbs, caffeine, GMOs, or anything artificial.
